Subject: RE: verify the number of connections

Mark,
The surface water intake capacity is 120 MGD.

Ann

Subject: RE: verify the number of connections

Ann,
Thanks for your help. After discussing the numbers with EPA this afternoon, EPA will be calculating the population served by WR, Riverside, and the surface water intake as 60% of the source of supply to the customers of Citizens Water. They will not need to know about all of the ground water resources across the system. However, I will still need the capacity for the surface water intake, and that should be it.
EPA is willing to have a conference call with you if you wish to discuss how these numbers are utilized.
Thanks

Subject: RE: verify the number of connections

Ann,

Here are the rated capacities for the RS and WR Well Field(s):

RS 2 – 800 GPM
RS 7 – 770 GPM
RS 8 – 800 GPM
RS 9 – 840 GPM
RS 17 – 600 GPM
RS 18 – 660 GPM

RS 19 – 660 GPM
RS 22 – 500 GPM
RS 26 – 600 GPM
RS 27 – 850 GPM
RS 29 – 600 GPM
RS A – 450 GPM
RS B – 1000 GPM
RS C – 1450 GPM
RS D – 740 GPM

WR 3 – 1360 GPM
WR 7 – 700 GPM
WR 8 – 2000 GPM
WR 9 – 1400 GPM

Subject: FW: verify the number of connections

Kraig,
Can you please get me the pumping capacity for each of the production wells in the White River and Riverside wellfield?

Thanks,
Ann

Subject: verify the number of connections

Ann,
I left you a voice mail. Regarding documentation for the HRS doc. record, EPA has asked me if you can verify the number of connections and/or a population served by the White River Plant blended system. That includes the White River Well field, Riverside Well field, and the surface water intake. I forward your response from last year to EPA (attached above) but they are asking to verify the issue. They also asked if there is anything else that supplies water to that system. Can you have someone elaborate why "There is no dedicated population that is directly served by only water from these well fields" as stated in the attachment above?

Also, EPA is requesting the capacity for each well and intake.

Please call me if you have any questions. I will be back in the office on Monday.
Thanks
